Mortise chains

We've been producing mortise chains for all standard, carpenter's and special mortising machines on a very high quality level since several decades.

We also supply "Hard Chrome Plated (H.C)" chains, intermediate sizes (for example width of chains, 6,2 mm or 12,5 mm), special dimensions and shapes for guide bars.

Most of the common size are on stock.

We have chains with:

Pitch A (22,6 mm - 0,89")

Pitch B (16,2 mm - 0,62")

Pitch C (13,7mm - 0,54")

Standard mortise chains

For all mortising machines:

Bänerle, Fezer, Rapid, Centauro, Framar, ME-SA, Masterwood, Griggio, Haffner, Festo, ELU etc.

Width of chain: 5 - 50 mm

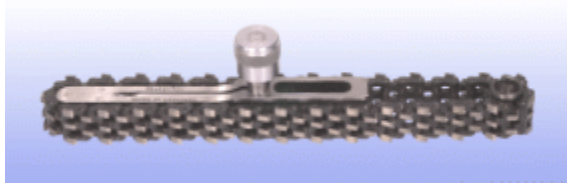

Length of mortise: 20 - 50 mm

Depth of mortise: 100 / 125 / 135 / 150 / 175 mm

Mortise chain gear for carpenter's hand mortising

Machines: Holz Her, Protool, Hema, Ryobi, Makita, Sauer, Haffner, Mafell "S"

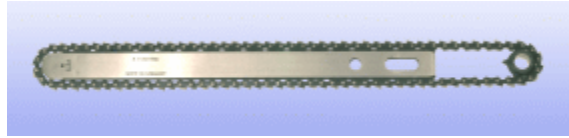

Mortise chain gear for carpenters slot mortising

Machines for depth of 300 / 400 / 500 mm:

Holz Her, Protool, Hema, Sauer, Haffner, Hundegger, Schmidler

Width of chain: 6 - 21 mm

Length of mortise: 50 mm
Depth of mortise: 300 / 400 / 500 mm
(Depth up to 800 mm are possible)

Tandem chain mortise gear set

Width of chain: 6 - 21 mm
Length of mortise: 30 / 40 / 50 mm
Depth of mortise: 125 / 150 / 175 mm
